**FOR RELEASE 12:01 A.M. CDT
AUGUST 8, 2010**

FINALLY, a book that is not afraid to discuss the taboo topics of religion and politics, for the two have become one—politics has become a religion. *The Fallen Eagle* begins with a comprehensive look at humanism in America and its effects on our morals, our politics, and our future. We are all affected by the humanistic mix, so much so that the future of our country, our economy, our faith, and our freedoms is at stake, all under attack by the same forces of evil—the pervasive powers of religious humanism.

Thomas Reed explores “The Worst of Times.” when truthfulness is viewed as just another obstacle in the humanist march toward total domination of the American landscape, and mainline Christianity in America has backslidden and entered a heightened state of apostasy. He examines the church in great detail, its leaders, its powerless worship, and the effects of humanism and capitalism.

Reed then explores “The Best of Times.” As matters of state are ultimately impacted by matters of the heart, he devotes most of the space to the apostate church and how its members can rise to the heights of holiness. Reed states, “We believe there is hope, if not for our nation’s return to sanity, then at least for individuals in pursuit of sanctity. For those who choose holiness, these can be “the best of times.” Holiness—that is our goal and our only hope in these troubled times ... the prelude to the Great Tribulation, the end of time, and the return of our Lord Jesus Christ.
